## profile

I value the usability and simplicity of the design. My mission is to create elegant designs for apps and websites that give users an enjoyable experience in the interaction.

## skills

### Design skills

UI/UX design

Graphic design

User research

### Tools

Illustrator    Photoshop

Figma          Adobe XD

After Effect   Maya

Premier

### Development

HTML/CSS

Javascript

Java

### Other skills

Video Editing

3D modelling

## education

### Simon Fraser University
BA of Interactive Arts and Technology
Fall 2017 – Summer 2021

SIAT teaches design theories and skills that can be applied in multiple fields. It provides practices of design skills, communication, and collaboration skills in team projects.

## award

### Dean's honor roll                    Fall 2018
in Simon Fraser University

(Term GPA 3.5 or higher with at least 12 term credits)

## interactive design experiences

### UI/UX design: Tool library showcase          Spring 2020
UX/UI design, Graphic design, User research
(Course: Interactive Design Methods)

- Applied many research tools in the client touch base and user research to have an accurate understanding of our client and their problem.

- Explored different design solutions that are grounded in our user data. Finally, chose the most feasible solution to make the organization more engaging for its members.

- Communicated regularly with the client to understand client's constraint and refined our project based on their feedback.

### Interface redesign: Peeknest          2019 Fall
UI/UX design, User Research
(Course: User Interface Design)

- Conducted multiple user testings on this existing app in the research term. Found out the flaws in usability and knew how its functionality mismatch users' needs.

- Prototyped the refined user interface,  tried out a different solution of feature integration to reach the best result that presents the function of this app correctly.

## employment

### Coco Fresh Tea & Juice
Role: Barista          June 2019 – Dec 2020

- Communicated with customers about their in-store experience. The feedback was then implemented to improve our customer service.

- Observed the team's working process and assisted other team members when problems came up, which successfully reduced errors in busy hours.

### Jinya Ramen Bar
Role: Food Prep          Oct  2017 – Jan 2018

- Co-operated with the team members sufficiently, made adjustment on the workflow based on the team's goal and current situation.
